PL/R extension in PostgreSQL 9.6

Document Author: arho.virkki@tyks.fi

The installation, requirements, and usage is similar to R Language extension (PL/R).

For details, see the PL/R Github page: https://github.com/petere/plsh

Installation

```
wget https://github.com/petere/plsh/archive/master.zip
unzip master.zip
cd plsh-master/
make
make install
sudo bash -c "PATH=$PATH:/usr/local/bin/ make install"
```

In the database, enable the extension with

```
CREATE EXTENSION plsh;
```

Examples

```
CREATE OR REPLACE FUNCTION delays.update_event_delays () RETURNS text
LANGUAGE plsh
AS $$
#!/bin/sh
./R/compute_delays2.R 2>/dev/null
echo $?
$$;
```
